Regulation (EU) 2016/425
Module B, EU type-examination

Issue 3

PPE Product

DuPont® (logo) Tyvek® 500 Labo model CHF7, hooded coveralls with integral shoe covers with slip retardant soles, which is available in six nominal sizes. The garments are manufactured from a white nonwoven fabric with sewn internal seams and has a front zip closure with flap; elasticated at the hood, cuffs, back of waist, ankles & the seams of the integral shoe covers.

It is certified that the manufacturer's technical file and the above mentioned PPE have been assessed and found to meet the applicable Essential Health and Safety Requirements in Annex II of Regulation (EU) 2016/425 Personal Protective Equipment

The following have been applied:

EN ISO 13982-1:2004 + A1:2010 (Type 5: Limited life, full body protection against airborne solid particulates);

EN 13034:2005 + A1:2009 (Type 6: Limited life, full body chemical protective clothing offering limited protection against liquid chemicals);

EN 14126:2003 (Protective clothing against infective agents) for the performance classification: 5-B & 6-B;

EN 1149-5:2008 (Protective clothing - Electrostatic properties) for electrostatic dissipative protective clothing with a surface resistance of $\leq 2.5 \times 10^9 \Omega$ on both surfaces of the garment.

In addition, with one exception the PPE satisfied the requirements of EN 1073-2:2002 (Non-ventilated protective clothing against particulate radioactive contamination) with a performance classification of TIL Class 2. The exceptions being that clause 4.2 requires resistance to ignition, which has not been tested.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 19 (c) of the Regulation are implemented and maintained while the model is in production

Certification is based on technical file reference: Tyvek 500 Labo, model CHF7, September 2018
